DIRECT-TO-FILM HEAT TRANSFER

Have an intricate design but don't want the "sticker look" of a contour cut? Direct to Film is the solution you've been waiting for.

INTRODUCTION:

Available on nylon, microfiber, polyester, polyknit, sweatshirt, and waterproof fabrics, we can create custom heat transfers that will make your logo or artwork pop without needing a contour cut. Now you can have incredibly detailed logos in vivid colors. We also offer reflective and sparkle heat transfer - we can do it all!

PRODUCTION TIME:

Our standard production time is 10-12 days from proof approval. Turnaround time varies based on capacity and seasonality.

ORDER MINIMUMS:

Direct-to-Film Heat Transfer minimums are 24 pieces. Orders less than 24 pieces will incur a fee per location.

ORDER REQUIREMENTS:

- Requires EPS/AI file for vector art
- Need PMS colors
- To quote, we need quantity of items and the size of the logo per square inches.

DIRECT-TO-FILM HEAT TRANSFER EXAMPLES:
